

**YIH SEAN**

# The New Yacht Switch Panel Design

## Thinner, Smaller and Smoother

Exclusive design only in Yih Sean.

Brand-new wave design: It's time to get rid of the invariable upright panels. This model is thinner and smaller. Made in plastic, it is an economical alternative to traditional switch panels.

## A Full Series of Switch Panels

The traditional switch panel has always been our best seller. With solid aluminum plates, anti-splash and dust-proof switches and breakers, and all the other instruments equipped, these elegant switch panels can meet all the requirements you need.

Please refer to our website for detailed specifications!
